Independent auditor's report

To the Shareholders of G3 Finance Limited

Report on the audit of the financial statements

Our opinion

In our opinion:

- The financial statements give a true and fair view of the financial position of G3 Finance Limited as at 31 December 2020, and of the company's financial performance for the period then ended in accordance with the Accountancy Profession (General Accounting Principles for Small and Medium-sized Entities) Regulations, 2015 and the Schedule accompanying and forming an integral part of those Regulations (GAPSME); and
- the financial statements have been prepared in accordance with the requirements of the Maltese Companies Act (Cap. 386).

What we have audited

G3 Finance Limited's financial statements, set out on pages 4 to 11, comprise:

- the statement of financial position as at 31 December 2020;
- the income statement for the period then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements of the Accountancy Profession (Code of Ethics for Warrant Holders) Directive issued in terms of the Accountancy Profession Act (Capt. 281) that are relevant to our audit of the financial statements in Malta. We have fulfilled our other ethical responsibilities in accordance with these Codes.

Independent auditor's report - continued

To the Shareholders of G3 Finance Limited

Responsibilities of the directors for the financial statements

The directors are responsible for the preparation of financial statements that give a true and fair view in accordance with GAPSME and the requirements of the Maltese Companies Act (Cap. 386), and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern. In particular, it is difficult to evaluate all of the potential implications that COVID-19 will have on the company's trade, customers and suppliers, and the disruption to its business and the overall economy.

To the Shareholders of G3 Finance Limited

Auditor's responsibilities for the audit of the financial statements - continued

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on other legal and regulatory requirements

Other matters on which we are required to report by exception

We also have responsibilities under the Maltese Companies Act (Cap. 386) to report to you if, in our opinion:

- Adequate accounting records have not been kept, or that returns adequate for our audit have not been received from branches not visited by us.
- The financial statements are not in agreement with the accounting records and returns.
- We have not received all the information and explanations which, to the best of our knowledge and belief, we require for our audit.

We have nothing to report to you in respect of these responsibilities.

Other matter – use of this report

Our report, including the opinion, has been prepared for and only for the Company's shareholders as a body in accordance with Article 179 of the Maltese Companies Act (Cap. 386) and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior written consent.

Notes to the financial statements

1. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below.

1.1 Basis of preparation

The financial statements have been prepared in accordance with the Accountancy Profession (General Accounting Principles for Small and Medium-Sized Entities) Regulations, Legal Notice 289 of 2015 (GAPSME), and the requirements of the Maltese Companies Act (Cap. 386). These financial statements have been prepared under the historical cost convention as modified by the revaluation of investment property as disclosed in the accounting policies below.

The company was incorporated on 11 February 2020 and accordingly these financial statements have been prepared for the period commencing from the date of incorporation to 31 December 2020.

At 31 December 2020, the company's current liabilities exceeded current assets by €80,450. These financial statements have been prepared on a going concern basis which assumes the continued support of the company's shareholders to settle the company's obligations as and when they fall due and that related parties will not request amounts due to them unless alternative funds are made available to the company.

These financial statements have been prepared under the historical cost convention.

1.2 Foreign currency translation

(a) Functional and presentation currency

The company's financial results and financial position are measured in the functional currency, i.e. euro ("€"), which is the currency of the primary economic environment in which the company operates. These financial statements are presented in euro ("€"), i.e. the presentation currency, which is the currency in which the company's share capital is denominated.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the income statement within 'finance income or cost'. All other foreign exchange gains and losses are presented in the income statement within 'other income/(expense)'.

1. Summary of significant accounting policies – continued

1.3 Financial assets

1.3.1 Classification

The company classifies its financial assets, other than investments in associates in the loans and receivables category. The classification depends on the purpose for which the investments were acquired. Management determines the classification of its investments on initial recognition and re-evaluates this designation at every reporting date.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the company provides money, goods or services directly to a debtor with no intention of trading the asset. They are included in current assets, except for maturities greater than twelve months after the end of the reporting period. These are classified as non-current assets. The company's loans and receivables comprise trade and other receivables and cash and cash equivalents in the statement of financial position (note 1.4 and 1.5).

1.3.2 Recognition and measurement

The company recognises a financial asset in its statement of financial position when it becomes a party to the contractual provisions of the instrument. All financial assets are initially recognised at fair value plus transaction costs.

Loans and receivables are subsequently carried at amortised cost using the effective interest method.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the company has transferred substantially all risks and rewards of ownership or has not retained control of the asset.

1.3.3 Impairment

The company assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. The company first assesses whether objective evidence of impairment exists. The criteria that the company uses to determine that there is objective evidence of an impairment loss include:

- significant financial difficulty of the issuer or obligor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- it becomes probable that the borrower will enter bankruptcy or other financial reorganisation; and
- observable data indicating that there is a measurable decrease in the estimated future cash flow from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group.

1. Summary of significant accounting policies - continued

1.3 Financial assets - continued

1.3.3 Impairment - continued

The company first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant. If the company determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment loss. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

For financial assets carried at amortised cost, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The asset's carrying amount is reduced and the amount of the loss is recognised in profit or loss. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in profit or loss. Impairment testing of trade receivables is described in note 1.4.

1.4 Trade and other receivables

Trade receivables comprise amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment (note 1.3.3). The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognised in profit or loss. When a receivable is uncollectible, it is written off against the allowance account for trade and other receivables. Subsequent recoveries of amounts previously written off are credited against profit or loss.

1.5 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at face value. Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the statement of financial position.

1.6 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares are shown in equity as a deduction, net of tax, from the proceeds.

1. Summary of significant accounting policies - continued

1.7 Financial liabilities

The company recognises a financial liability in its statement of financial position when it becomes a party to the contractual provisions of the instrument. Financial liabilities are recognised initially at fair value, including transaction costs. These liabilities are subsequently measured at amortised cost. The company derecognises a financial liability from its statement of financial position when the obligation specified in the contract or arrangement is discharged, is cancelled or expires.

Payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

1.8 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

1.9 Current and deferred tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised directly in equity. In this case, the tax is also recognised directly in equity.

Deferred tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill; deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

1.10 Dividend distribution

Dividend distribution to the company's shareholders is recognised as a liability in the company's financial statements in the period in which the dividends are approved by the company's shareholders.

2. Trade and other receivables

	2020 €
Current	
Amounts due from shareholders	2,000
	2,000

Amounts due from shareholders are unsecured, interest-free and repayable on demand.

3. Trade and other payables

	2020 €
Current	
Amounts due to related parties	80,600
Accruals	1,850
	82,450

Amounts due to related parties are unsecured, interest-free and repayable on demand.

4. Loss for the period

The loss for the period is stated after charging the following:

	2020 €
Annual statutory audit fees	1,700
	1,700

5. Related party transactions

G3 Finance Limited forms part of the G3 Group. All companies forming part of the G3 Group are related parties since these companies all have common ultimate controllers. Trading transactions between these companies typically include company interest charges, management fees and other such items which are normally encountered in a group context.

The following transactions were entered into with related parties during the financial reporting period:

	2020 €
Expenses charged by related parties	80,600
	80,600

5. Related party transactions - continued

The transactions disclosed above were carried out on commercial terms. Year-end balances with related parties, arising principally from the transactions referred to previously, are set out below:

	2020 €
Receivables:	
Amounts due from shareholders	2,000
	<hr/>
Payables:	
Amounts due to related parties	80,600
	<hr/>

The above balances are unsecured, interest free and have no fixed date of repayment.

6. Statutory information

G3 Finance Limited is a limited liability company and is incorporated in Malta. The registered office is 'The Pergola', Adenau Street, Mellieha, Malta.
